

THE LIST

Traitors, Criminals, Liars, and Thieves...

WRITTEN BY CURATOR OCTOBER 27, 2016

This publicly available information is provided for informational purposes only and was obtained legally through public records. These people should be treated with the utmost respect at all times for the essential duties they conduct and services that they provide to the American people. Consider sending these people flowers, sweeping their porches, and pulling up their garbage can should they forget.

American heroes; an august group.

We take America from the corrupt! The Jews! The oppressors of generations who have kept you down with myths of opportunity, and we give it back to you... the people. America is yours. None shall interfere. Do as you please. Start by storming the media, and freeing the oppressed! Step forward those who would serve. For an army will be raised. The powerful will be ripped from their decadent nests, and cast out into the cold world that we know and endure. Courts will be convened. Spoils will be enjoyed. Dox will be dropped. The mods will survive, as they learn to serve true justice. This great board... it will endure. /pol/ will survive!

100+ dox in this one. Previous dumps at the archives below.

I am OP of original #TheList thread.

Reporters were taken from search engine searches in the format of "site:[NewsWebsiteURL] Trump" then the article was reviewed for negative/false coverage.

Also journalists that were covering Hillary Clinton rallies and promoting misleading "angles" of crowd sizes etc... were included.

BuzzFeed Journalists on the list were also added based on Twitter comments / postings with large exposure / re-tweets or just blatantly false bullshit or misleading disparaging comments about Trump.

Anti-Trump Journo Dox Dump 2: Electric Boogaloo

Hey guys, Carl Benjamin here! You might know me better as Sargon of Akkad from YouTube and Twitter where I enjoy spamming my followers with interracial porn. I have yet another info dump for you tonight and I think you'll quite like it.

Much like the previous dump, this will be a virtual rolodex of 50 anti-Trump media shills who regularly lie and deceive the American people. The archive of the previous 50 can be found here: <https://archive.is/o7col>

Have fun and please do not do anything illegal with this information

Well i would think of trolling of something funny or sophisticated not something that is the lowest of the low unless you want a very specific reaction that is usually used by something that gets something out of and by that i mean a certain goal. You mean the point of this shit is using this crap to get a fucking reaction and nothing more? Doesnt really sound plausible unless your friends do not tell you the whole story. Not when you have some other juicy shit, and people that do this have a certain configuration that isnt explained by schadenfreude my little friend. You need better bait, you need to find what makes a big portion of hillary idiots vote for her. In most cases it is a continuation of the status quo, which they wont admit. Not really about the ethics, it is more like trump is fire to their shelter, or at least they preceive it at that. So in order to call them out you need to apply to their ethics which is hard in this case, because you know you got trump.

So in that case, you need to tie them to the establishment so they either confine to it or are against it to appease their virtue signaling.

Some goyim rationalize it by saying is the devil you know, but then you have to appeal to their to their virtue signaling from the most basic level, tell them that they are just some apathic cucks that miss the basic point and tie that to the basic principle in voting to the first place. So either you vote to make a change or you vote for the sake of giving your 2cents to a better actor, which implies that they are fully consenting to everything for the sake of the show. Noone likes to be called shallow, and you need to exploit that, you need some ties to make that work some fundamental framework that doesnt allow that.

In case you didn't notice, SJWs have been winning the culture war for the past several decades. The only reason we're making gains now is we've stopped giving a shit about what they think.

True victory for us doesn't mean we get to build a wall and leftists shut up about black lives for a bit, it means leftists fucking die. Anything else is just delaying future conflicts.

The main reason the right is rising up recently is due to the blatant censorship that is being called out all over the internet. Even normalfags see this and come to the conclusion that the right is being censored because there is truth to their arguments. The same thing would happen if the left was censored.

If both sides are allowed to speak freely, the right generally comes out on top, as long as we stick to facts.
Plus, [>>7934284](#) is right. How are we supposed to call out the left's faggotry if we can't even hear what they are saying or what they are plotting against us. Basically the whole point of /pol/ is doing this on a daily basis.

But go ahead.. keep up the act and see that pizzas was only just a trial run.

You wanted to use your 'journalist' position for dirty tactics so this is where you get to learn others can play even dirtier right back.

I saw images of my daughter's face in gas chambers, with a smiling Trump in a Nazi uniform preparing to press a button and kill her. I saw her face photoshopped into images of slaves. She was called a "niglet" and a "dinda." The alt-right unleashed on my wife, Nancy, claiming that she had slept with black men while I was deployed to Iraq, and that I loved to watch while she had sex with "black bucks." People sent her pornographic images of black men having sex with white women, with someone photoshopped to look like me, watching.

Yeah I think one of the lesser known secrets of this place (at least to outsiders) is how many shills have ended up realizing we are correct and joining us instead. Since many shills understand persuasion but have a bad set of information when they see us dropping truths they can't refute it eventually sticks and they finally break.

Ok just gave yourself up Chaim. We're only counter-semitic here. If Jews weren't the actual supremacists projecting everything wrong with themselves on the white race while systematically trying to wipe us all out through browning then maybe we wouldn't have a problem with them in the first place. Despite being kicked out of countries throughout almost all of recorded history (because everyone else is the problem :^]) they can never help themselves, and ultimately overplay their hand until the next shoah which is now long overdue.

I'm not. I believe no single human can rule well. Not even a group of people. They will all corrupt faster than possible and be worse than jews currently.

We need to think about global effects of a war. While planning a war, don't think just about your allies, think about your enemies too.

In the first edition of his book, *The Destruction of the European Jews*, Hilberg wrote that there were two orders given by Hitler to exterminate the Jews, the first in the summer of 1941 to exterminate the Russian Jews and, a short time later, another order to exterminate all the Jews of Europe. In the 1985 second edition of the book, however, Hilberg completely rewrote this passage and eliminated any discussion whatsoever of any orders by Hitler. In a public statement made a few years before, Hilberg took the position that **there probably never was an order by Hitler to exterminate the Jews** but that some kind of extermination programme happened spontaneously.

This is a good example of the kind of changes that occurred to the Holocaust story which the public in general was not informed of.

Think about it this way. It's not the religion that is corrupt. It's the religious leaders who push that kind of nonsense. Maybe we can make them revoke those views?

Power corrupts absolutely. The closest to an absolute power is a religion.

In my opinion Talmud is just an addendum to the jewish religion. Maybe the "goyim enslaving" is actually just? Maybe jews knew more and tried to help us. We are forming our hiveminds now and getting to know the truth. Truth can't be hidden forever.

So, what I propose, is that we shouldn't gas the kikes, but force changes in their religion, so they can coexist with us. The change of power is about us getting to know more than them. If we do, maybe we should focus on helping the less fortunate groups of people like nations or religions with our knowledge instead of destroying people who think differently. Maybe we should think about jews as undeveloped? Or maybe they still have more knowledge than we have? Or: we both have some important information, but we can't work together to consolidate it, because people bleed anuses (eg. muh holocaust)?

Well. I am a kind of person, that tries to check every possible line of thought and not dismiss it. This is in my opinion the best method of thought. I am able to work with multiple memes (religions, psyops) in my head and try to agree or disprove them. There are various psyops in our heads. Some are planted by anti-white people. Please check those psyops, they may be dangerous. The religions are psyops too. Sometimes a whole part of your life can happen to be a psyop. That's the ultimate red pill IMO, not believing anything and trying to disprove your mind all the time.

Now, maybe the psyops are actually good, so we don't make the weak people need to learn about the reality. It can really hurt.

I think that the religions aren't necessarily bad, but the addenda may be, especially if they are made to enslave people.

>USA is just an arena.

No it's literally all anyone fucking cares about in this context. The "USA is responsible for the world" meme is your weak psyops, not ours.

Right now all "we" want is to get America out of the tailspin. People toss around some ==RWDS== memes in fun, but in the back of everybody's mind all they expect from Trump is tighter immigration control, a clearer focus on defense of the nation both domestic and foreign, and the disentanglement of the government from (((globalist))) influence. That's the exact opposite of starting shit

Subject: Meet and polling design

Hey, when can we meet? I also want to get your Atlas folks to recommend oversamples for our polling before we start in February. By market, regions, etc. I want to get this all compiled into one set of recommendations so we can maximize what we get out of our media polling.

Yeah, but how do they trace who purchased the printer.
Closest they can find is the shop you purchased from.
Possibly not even that.

AntiTrump Journo Dump #BWC4LYFE

Below, there's a list of names, titles, and home addresses of 50 anti-Trump media personnel from several large publications including The Daily Beast, Huffington Post, Daily Dot, Daily Wire, Heat Street, BuzzFeed, The Hill, New York Times, Washington Post, The Young Turks, TheBlaze, CNN, Fox News, Resurgent, Daily Kos, and Vox. Feel free to add your own.

I don't condone doing anything illegal with the information here. I also don't condone sending wave after wave of fast food, holy books, gay porn catalogs, bricks, emergency plumbers, locksmiths, transgender escorts, or freeze-dried bear shit to anyone's home. This is immoral and in many cases illegal. I also disavow using the US Postal Service site to set up an account in the target's name to send free shipping supplies and thousands of boxes to their home or placing a mail hold (prevents any mail from going to their home) on the target's address for a month. Definitely do NOT do any of those things! Make the Internet Great Again. BWC4LYFE!
